COMPANY PROFILE

Octosquare business

providing tools for achievers

Octosquare Business , established in 2020, began its expedition as a family-driven partnership firm with a vision to revolutionize the analytical, scientific, and life science equipment distribution landscape in India. Today, we stand before you, humbled by the extraordinary growth and success we have achieved, and it is all because of your unwavering support and trust in us.

As a **leading distributor and stockist** of high-performance analytical and scientific equipment, we take immense pride in catering to diverse segments such as chemical, pharmaceutical, mineral, petroleum, water, construction, food, agriculture, institutions, schools, research organizations, laboratories, and more. Your belief in our capabilities has encouraged us to continuously strive for excellence and innovation.

At Octosquare Business, we have always strived to be more than just a business we are a family. We owe our accomplishments to the sharp business insights and rich industrial experience of Our Partner

Mr. Param Kumar, and the unwavering support of **Mr. Ramesh Kumar** ,
Director of GA Instruments Pvt. Ltd.

Their guidance and vision have been the guiding stars of our journey.

COMPANY PROFILE

Octosquare
business

providing tools for achievers

Originating from the GLOBAL family – dealing in scientific and laboratory instruments for 60+ years, we are venturing into the world of B2B for Analytical, Scientific, Pharma, Lab and Measuring Instruments.

At Octosquare Business, we're committed to offering quality products with all the essential product information, unparalleled service and competitive prices – right at your fingertips. Here you can find great deals on equipment and supplies, browse a huge range of products in one place and reduce the costs of managing your facility.

When you choose Octosquare, you get a partner who knows the worth of your time and money.

"Partner with the Scientific Experts."
Experience the Difference:

Testing Equipments

Sieve shakers

Sieve shakers are used for separation and size determination of particles. A typical sieve shaker separates particles by passing them through a series of chambers with mesh filters and agitating the sample in order to obtain complete separation.
